

One Way Lashing - A-lock

Product information

The One Way Lashing System offers a high yet economic method of lashing cargo when conventional lashing systems cannot be retrieved at destination for re-use. The tensioning tool attaches to most webbing and is fast and easy to operate. In the LC column the lashing capacity is indicated in combination with lock and webbing.

LC kN	LC daN	Width	Band width mm	Breaking force kP	Delivery time
1,600	160,000	50	50	4,800	7
