Coil Lifting Sling Extreema®

Product information

The Extreema® coil sling is designed to handle packed steel coils that require more than standard solutions. Traditional polyester slings can fail under harsh conditions, that is why the Extreema® Coil Sling is the next step in safe, efficient lifting.

Lightweight yet incredibly strong, the Coil Sling offers unmatched cut and abrasion resistance. Designed specifically for the steel industry, it protects both operators and cargo during loading and offloading. The Extreema coil sling is constructed from an Extreema® Original sling and is equipped with Extreema® XXL anti-cut sleeves on both strangs.

WLL range: 3t – 30t
EWL range: 0,5m – 65m

When to choose this product

Best for:

- Lifting and transporting packed steel coils with sharp edges
- High-frequency operations requiring durable, low-maintenance slings

Product benefits:

- Ultra-light & easy to handle
- High cut, abrasion & puncture resistance
- Low elongation (<1%)
- Water- & UV-resistant
- Gentle on cargo, tough on performance
