

## Lashing Carry - inside

### Product information

**General:** Carry is an interior lashing that fits well in most transport vans and lorries. Interior lashings come standard with end fittings with latch (EF-fitting) as they fit most rails on the market. Can also be supplied with dry-band that are water repellent and keep away dirt, for a longer life cycle.

**Marking:** According to standard

**Standard:** EN 12195-2

**Note:** Standard version is with double hook but can also be supplied with other fitting on request.
